Janet:

I haven't heard of that one. I'm not finding anything in our database and it has been awhile since we've had a new coal mine application, but I will certainly keep my eyes and ears open for it.

Hi Catherine,

I was asked to inquire regarding United Mineral's Seven Hills mine, a 2,350 acre surface mine south of Lynnville in Warrick County, IN.

It appears the site has its SMCRA permit already, but if you could let me know if they have applied for a NPDES permit yet, whether its under the GP or an individual NPDES permit and send any documentation related to the application/ NOI would appreciate it.

Thanks much
